

PLANT IDENTIFICATION REQUEST –ASU Herbarium

Collector:

Email:

Phone:

Address:

SAMPLE NO. (Use separate sheet for each sample)

SPECIMEN COLLECTION AND MAILING INSTRUCTIONS

1. Provide as complete a specimen as possible, including stem with leaves attached, basal leaves (if any), flowers, fruits, bulbs, rhizomes, tubers.

2. Press and dry the specimen in a fold of newspaper weighted with a board or heavy box for a few days (in Arizona, inside a hot car will do the job).

3. Complete the following information:

LOCALITY OF PLANT (including gps coordinates if possible):

STATE, COUNTY, CITY:

HABITAT: Desert, forest, field, aquatic/wetland, garden, yard, crop (circle one) (other, describe):

GROWING: Wild or cultivated (circle one)

HABIT: Tree, shrub, herb, vine (circle one)

NOTES: Approximate age or size, flower color, etc.
